

Enviro Product Stretched Canvases

Not just another product poster.

In an effort to help our product stand out in dealer show rooms we are now offering Enviro product stretched canvases in two sizes: 24"x24" and 24"x36". Both sizes feature high resolution photography printed on 3/4" canvas fabric stretched & fastened to a wooden frame. These posters look amazing in any showroom and are the most beautiful way to present an Enviro product short of a burn display.

Order directly from Enviro by specifying ***the model and canvas size POP***. Please contact your sales manager for more information about this new product.
