THE E25 GAS INSERT

Optional Liner

The E25 is compatible with an optional ceramic brick liner if you would like to give your new gas insert a more traditional appearance.

Included Face

The E25 includes a steel chamfered edge surround panel with a contemporary aesthetic. An optional trimmable filler panel can be added to assist with installation.

The Enviro Flame

The E25's build design uses innovative construction methods to produce a gorgeous flame pattern that will set the mood for any occasion.

Included Log Set

The burner is accented by a beautiful seven piece ceramic log set with HD detailing and a folded steel fire grate. The grate is nestled above imitation embers for a more natural look.

Optional Fan

The E25 is compatible with an optional variable speed CFM fan should the owner feel the need to have one installed.

Specifications

BTU Input	28,000	P4 Efficiency	TBA
Heating Area	1500 ft^2	Valve Configuration	IPI / Millivolt
Glass Size	420 in^2	Min. Install Dims (HWD)	19⅞" x 27⅞" x 13"

Enviro's Smallest Install Depth - Only 13"

Burner Design

The E25 utilizes a new stainless steel constructed burner. This burner has been sprayed matte black to maintain a subdued appearance and to push focus towards the flame.
